

ECEIM Specialist Day 2017 announcement

(Thursday, 2 November 2017)

Advanced Diagnostic Imaging of the Equine Head and Neck

During the morning lectures you will gain expert insight into the full spectrum of standard and innovative new imaging techniques for the equine neuro-/splanchnocranium, cervical spine and soft tissue structures of the neck.

In the afternoon, you will discuss interesting cases and topics with our internationally renowned speakers in smaller groups.

Don't miss the opportunity to share your own challenging cases with us.

Submit ultrasound pictures, radiographs, CT or MRI images of the head and neck of your own equine patients, plus a short description of each case to lucia.unger@vetsuisse.unibe.ch (submission deadline for cases: **15.10.2017**).

Find the complete program at <http://www.eceim2017.info/eceim-specialist-day.php>

All material (power point presentations) will be provided in advance to registered attendees.
