

Gabriel Manso Díaz, DVM, MSc, PhD

Gabriel graduated from the Universidad Complutense de Madrid (Spain), and then he completed a Master in Research in Veterinary Sciences. After this he did a PhD on comparison of advanced imaging modalities in the diagnosis of head disorders in the horse. Gabriel splits his time between clinical work in veterinary diagnostic imaging and clinical research, with a particular emphasis on equine head, spine and abdominal imaging. He currently works as clinician at the Diagnostic Imaging Service of the Veterinary Teaching Hospital in Madrid and is performing an alternative residency in veterinary diagnostic imaging (large animal track) at the Royal Veterinary College in London.
